

ATLANTIC™ ENVIRO-EEZ

DESCRIPTION

ATLANTIC ENVIRO-EEZ is an Environmentally responsible, non-metallic, multi-purpose Drill Collar and Tool Joint Compound. Formulated with a balanced blend of natural inorganic anti-wear and anti-corrosion additives homogenized into a non-melting synthetic grease base. ATLANTIC ENVIRO-EEZ does not contain any solvents, metals or clay fillers.

USAGE

ATLANTIC ENVIRO-EEZ is truly a multi-purpose tool joint compound which can be used throughout the entire drill string. ATLANTIC ENVIRO-EEZ is engineered to provide maximum equipment protection on drill collars, tool joints, tubing and all subsurface production tools. Due to its non-petroleum, non-metallic formula, it is an excellent choice in all drilling applications where EPA environmental studies are a consideration.

ADVANTAGES:

M ENVIRONMENTALLY RESPONSIBLE M NON-METALLIC FORMULA
M NON-MELTING M PREVENTS RUST & CORROSION
M STICKS TO WET JOINTS M NON PETROLEUM BASE

SERVICE RATING: -10F (23C) to 1000F (537C)

OPERATING RANGE: Base Grease provides lubrication to 300F (149C). Lubricating solids provide lubrication to 1900F (1038C)

TESTS	TYPICAL SPECIFICATIONS	
	ASTM TEST	RESULTS
Base Thickener	----	Synthetic
Worked Penetration	D-217	290-310
Dropping Point, F	D-566	NONE
Base Oil Viscosity,		
SUS @ 100F	D-445	1400
SUS @ 210F	D-445	110
Flash Point, F	D-92	305
Pour Point, F	D-97	-25
Brushability (Minimum)F	--	-10

PACKAGE AVAILABILITY

1 gal. Pail, 2-gal. Pail, 3-1/2 gal. Pail and 5-gal. Pail
