

ATLANTIC™ No.7

LUBRICANT & SEALANT

Gasoline & Solvent-Proof

DESCRIPTION

ATLANTIC No. 7 LUBRICANT & SEALANT is a blend of the finest synthetic lubricant base stocks, thickeners, and additives. ATLANTIC No. 7 is engineered for use in difficult-to-hold products while still providing a perfect seal.

USAGE

ATLANTIC No. 7 LUBRICANT & SEALANT is designed for use in all lubricated valves in gasoline, LPG, natural gas, chlorinated solvents, aromatics, water, alcohols, and other service conditions where solvent action of product stream may cause valve operation problems.

ADVANTAGES

- M 100% Synthetic
- M Resistant to Practically All Solvents Including Chlorinated Hydrocarbons
- M Will Not Contaminate Line Product
- M Does Not Contain Clay Filters
- M Leaves No Residue in Valves

TYPICAL SPECIFICATIONS

Color Translucent White
Texture Tacky-Smooth
Service Temperature 0 F to 425 F
Base Oils Synthetic
Dropping Point None

PACKAGE AVAILABILITY

5 qt. Can, 5 gal. Pail, and 15 gal. Keg
J & K gun size Sticks
Small Sticks for screw type lubricators
