

ATLANTIC™ VALVE CHEAT-HER

VALVE LUBRICANT/SEALANT

DESCRIPTION

ATLANTIC VALVE CHEAT-HER is an advanced concept for general purpose valve lubrication and sealing; plus excellent anti-seize properties to minimize valve freeze up. ATLANTIC VALVE CHEAT-HER has a balanced blend of lubricating additives designed to release frozen or hard to operate valves while still providing a good seal against products in the line. ATLANTIC VALVE CHEAT-HER does not contain any solvents or clay fillers that dry out and harden in the lube journals of the valve.

USAGE

ATLANTIC VALVE CHEAT-HER is designed for use in all lubricated valves in hydrocarbon, LPG, aromatics, natural gas, aqueous solutions, acids, caustics, general high temperature and many other services.

CAUTION: ATLANTIC VALVE CHEAT-HER is not for oxygen use.
